

# WABBIT X PROTOCOL

## WHAT

The Wabbit X Protocol is a 24/7/365 global AI-driven Viral Marketing campaign and Bounty Program designed to find individuals interested in the crypto space and help them get involved. This largely untapped market consists of potentially billions of people. WXP participants can use it to earn extra WXL-coin, while others may choose to dive in headfirst and potentially earn a full-time income.

## THE PROCESS

In a nutshell, the process begins by identifying individuals interested in cryptocurrency. Simply ask questions like “You into Crypto/BTC?” or “Did you hear Bitcoin went up 100% last year?”

Then, offer them free tWXLt (sample WXL-coin provided by WabbitXLabs.com), and help them set up a free wallet to receive it. In the process, you’ll obtain their email and phone number, which will be added to an automated follow-up system at no additional cost.

Some participants will choose to buy WXL Learning and Support, while others will opt to become Community Mentors themselves, or do both. Wabbit X Protocol does not engage in sales or provide financial advice. For more information on the process, log in to your Community Mentor Back Office after signing up.
